

Frontend Developer

Vienna | Technology | Full-Time

As a Fintech Startup we are expanding rapidly and hence, we are seeking new, experienced and hands-on team members who think outside of the box (and are not afraid to share their thoughts), will deliver unique ideas and like to work in a fast-paced environment.

At Brickwise we will introduce customers to a new way to invest in real estate and benefit from it like an owner. From buying digital shares, to managing assets and global trading, customers simply get more with Brickwise.

Your Mission

- Adapt and improve the look and feel of our platform
- Work closely with designers and business to define and implement elegant solutions to interesting problems
- Work on gamification elements
- Implement the design in the Web-App and Mobile-App

Your Experience

- Implementing fast and modern frontend design
- Experience in UI Design for Web and App
- Experience with Javascript Frameworks (Vuejs, Angular)
- Excellent knowledge of CSS3 and HTML5
- Experience using RESTful services

Our Offer

Work and define a product which will impact the association of real estate investments while using the latest technology and frameworks.

- Work in a young and experienced startup environment
- High degree of autonomy
- All the latest tech you need
- Skip the commute and work from home
- Flexible working hours
- Room for personal and professional development
- Competitive gross salary at a minimum of € 45,200 (based on 38,5 h/week). Depending on your qualification and experience we are willing to overpay.

Join Our Team!

Submit your CV (English or German) and if available: Work Portfolio, GitHub, and LinkedIn via email at hello@brickwise.at
